2017/2018 Philosophy of Teaching and Curriculum

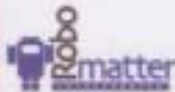

Here at EFK we take teaching very seriously however we aren't overly concerned if the child retains the specific engineering concepts or scientific laws. We teach to ensure that the children develop a *love of learning*, that they accept to learn through trial and error, "**Failure is an Option!**" and that they develop key *teamwork skills* that are paramount for future education and career endeavors.

K-2nd: WeDo LEGO Robotics, Makey-Makey, Computer Programming with Scratch Jr, and creative Engineering builds like: Kaleidoscopes, Ice Cream Factory and Airplanes.

3rd-5th: EV3 MINDSTORM LEGO Robotics, Minecraft, Video Game Design and creative Engineering builds like: Candy Catapults, Cartesian Divers and Egg Drop Parachute.

For specific descriptions of each quarterly learning block, please visit our website.
