

# Type to Learn 4 at Home

## About the Program

Type to Learn is a software tool to teach keyboarding skills to students in grades K-8. The program is a web enabled client server application where the client program is loaded locally and it interacts with a cloud hosted authentication server.

- **Home Computer**

Students need to download and install the program to their home computer from:

- **MAC Client**

[Parents please click here for downloading instructions for MAC](#)

These files are zipped and should automatically unpack on almost all OSX operating systems. Launch the installer by double-clicking on the contained file in your 'downloads' or 'documents' folder.

[Full TTL4 v1.2.1 Application - MAC](#) (944.65MB)

- **Windows Client**

[Parents please click here for downloading instructions for Windows](#)

Please make sure to click "Save" when downloading the file rather than selecting "Open"

- **Account Code**

The school code is **156587**. This code will need to be entered by each student along with their User ID (Student Number) and application password at the logon screen.

- **User's Guide**

The User Guide is available on the download site: <http://ttl4.sunburst.com/downloads/>

Note: TTL 4 web interface is not compatible with IE11. Use compatibility mode or another browser such as Firefox or Google Chrome.
