Letter From the Principal

“The mountains are calling and I must go.” John Muir

Sea Turtles,

School's out for summer! It has been an incredibly rewarding year here at PVPV Rawlings. I encourage our sea turtles to embrace the less structured time of summer. As a wise man once said, “Rest is not idleness, and to lie sometimes on the grass under trees on a summer's day, listening to the murmur of the water, or watching the clouds float across the sky, is by no means a waste of time.” I encourage our students to play outside and enjoy the wonders of Florida. Swim in the ocean, play in the sand, float down the Ichetucknee, and climb trees and just enjoy the wonder of being alive!

Our students, our teachers, and our staff have all truly earned time for rest on the beach, near a pool, or engaging in their favorite hobbies without the worry of homework or lesson plans. As for me, the mountains are calling, and I really must go. I'm looking forward to hiking in the Rocky Mountains, the Needles in Canyonlands, and the vast wilderness of Glacier National Park with my family. If by chance I run into a hidden civilization of Sasquatch during my journey and manage to befriend the creatures and learn their cultures. . . I'll try to make a movie about it! But otherwise. . . Dr. Gates is signing off until August!

Happy Summer everyone!

Daily Awesomeness!

Mrs. Garcia's 4th grade class has been sending the residents at Ponte Vedra Gardens Assisted Living Facility monthly messages of encouragement and they wanted to see her class in person! The class collected puzzles, made brag tag necklaces, and wrote letters to them. It was an incredible experience and greatly enjoyed by both groups! HOW AWESOME IS THIS????

Be Proud of Your Lawn...

Precision Turf is Jacksonville's total turnkey service provider for all of your commercial and residential landscaping and lawn maintenance needs. We offer an innovative approach to quality landscaping and maintenance. We are one of the only companies in the industry to offer landscape, maintenance, irrigation, fertilization, all under one roof. This allows us to provide a specialized team approach to servicing your property, giving you the best possible results.

Landscaping – With over twenty years in the landscape and lawn maintenance industries, Precision Turf is simply the best choice to incorporate your ideas into the landscape design of your property. Since your property is the first thing your guests or clients see, it's vital that you take advantage of all of the available elements to increase curb appeal. We begin by professionally creating a plan for your property. Incorporated into this plan are all of the elements of your project including landscape materials, irrigation needs, plantings, and other features. With our dedication and attention to detail, we can ensure that your property is beautifully landscaped according to your approved design and budget.

Maintenance – In our Florida climate, it's more important than ever to maintain your property. Not maintaining your property lessens your curb appeal and the health of your lawn. We can handle all of the demands of both residential and commercial properties. Our lawn maintenance programs include mowing, edging, blowing, weed-eating, trimming and more. Additionally, we can provide insight into the acquisition of new sod or turf when needed, as well as landscape updates, sod replacement, fertilization, and irrigation.

Irrigation – Florida is hot and humid, so proper watering and irrigation of your property is vital. Not only is it important that your property get enough water, it's equally as important not to over water. Balance is the key. Precision Turf will find the perfect balance for your property's needs while conserving one of our most valuable resources. We provide an excellent warranty and continued service after the project is completed and we also offer service contracts that monitor water times, weather conditions and the overall condition of your irrigation system.

Fertilization – Precision Turf has the perfect diet for your property. Fertilization and lawn pest control – keeps your property lush and gives you a yard to be proud of. Control of weeds, insects, and fungus is also included with service. Without the right diet, your property is more prone to disease and sickness. Precision Turf uses both macro nutrients and micronutrients in the proper amounts and at the correct times of the year to help maintain the health of your lawn. Our experienced technicians can assess exactly how to properly feed your flowers, plants, shrubs and turf to ensure that your property is healthy throughout the year.

...Creating Perfect Lawns Since 1989.

Over 40 Years of Precision Turf History. A Reputation Built on Quality.
